Malte B. from Aachen  
**Head of Department  
Project Management**  
and skillfull football player

#### What you will do at our company

- \_ In our team you develop applications which form the interface between the travel agencies/internet portals and tour operators.
- \_ You implement complex booking workflows.
- \_ To ensure quality you prepare and ensure automatic tests.
- \_ As a member of the agile DevOps organisation beside development you take over responsibility for maintenance work and use your knowledge for error analyses and bug fixing.

#### What you contribute to our company

- \_ You have at least four years of professional experience in software development with Java.
- \_ Moreover, you are versed in the following technologies: Linux/Unix, XML/XSLT, SOAP-/REST-Webservices as well as MySQL and NoSQL databases.
- \_ Additionally you have been in touch with Docker and Continous Deployment build environments.
- \_ As an internationally operating company we expect good German as well as good English skills.

#### Why it is worthwhile for you to move to Traveltainment

- \_ As part of the Amadeus group, we work internationally with the colleagues on joint projects.
- \_ We offer you the opportunity to do further training throughout the group.
- \_ Help to actively create the way into the agile world.
- \_ Working time is a matter of trust at our company and should be fun.
- \_ Stay as you are – instead of dress code, we offer individuality.
- \_ Exclusively for our employees, there are special offers around the topics holiday, travelling, technology, fashion and many more.

What else? Also besides work, there are many options at our company: Playing billiards or kicker, eating together in the canteen or enjoying the sunshine on the terrace!
